BOVINE ACADEMY FOR SOUTHERN AFRICA

National Certificate Animal Production

With a specialisation in:
Dairy Production

SAQA ID 48979

STUDY PROSPECTUS
2023

COURSE OVERVIEW

National Certificate: Animal Production | NQF 4, 142 Credits
With a specialisation in Dairy Production

QUALIFICATION RULES

The National Certificate in Animal Production with a specialisation in Dairy Production is an academic online programme supported by practical hands-on modules, developed for the sub-Saharan Africa Dairy Industry.

The qualification focuses on the technical supervision of Operational Dairy Production skills within the framework of the sciences of animal biology, nature conservation, regenerative production, agricultural economics and strategic and business management, supported by fundamental knowledge of the application of basic computer skills, communication, applied mathematics, agricultural engineering technology and chemistry & physics.

The one-year National Certificate in Animal Production with a specialisation in Dairy Production will enable qualifying students to actively participate and gain knowledge in Primary Dairy Production, whilst enhancing the overall agrarian process and gaining opportunities to access local, national and international agricultural markets.

Specific competency will be obtained in the specialised sub-fields of dairy production systems, handling practices, classes and life functions, diseases and biosecurity, handling and management practices, the milking parlour, and the harvesting of milk with an evenly strong focus on economic and financial management.

On completion, students will be well positioned to extend learning and practice into other sub-fields such as crop production, mixed farming, wildlife management and farm management through upskilling to a National Diploma on NQF level 5, as well as qualifications in the dairy value chain, such as:

- National Certificate: Milk and Cream Handling
- GETC: Food & Beverage Handling Processes
- National Certificate: Manufacturing Management
- Introductory Dairy Analytical procedures
- Good manufacturing principles
- HACCP (Food Safety) for Supervisors
- Compile a HACCP (Food Safety) Study
- Internal & Supplier Auditing practices

WHAT YOU STUDY

First Year modules

Semester 1

1. Introductory Modules (INDU110 & NATU110)
2. Basic Computer Skills (COMP110)
3. Communication Skills I (COMM114)
4. Applied Mathematics & Statistics I (MATH114)
5. Agricultural Science (AGSC110)
6. Agricultural Management & Economics I (AGMA114)
7. Animal Science I (ANIM114)
8. Dairy Production I (DAIRY114)

Semester 2

1. Communication Skills II (COMM124)
2. Agri Engineering Technology (ENGI124)
3. Agricultural Management & Economics I (AGMA124)
4. Animal Science I (ANIM124)
5. Grazing & Pasture Science I (GRAZ120)
6. Dairy Production I (DAIRY114)

ADMISSION REQUIREMENTS

The following minimum admission requirements will be required to enter the National Certificate:

- Communication at NQF Level 2
- Mathematical Literacy at NQF Level 2
- Agricultural activities at NQF 3

CURRICULUM LAYOUT

First Semester:

Introductory Modules

- Introduction to Agripedia (INDU110)
- Nature of Thought (NATU110)

Module 1: Basic Computer Skills (COMP110)

- Introduction to Computers
- Computer Components
- Operating Systems
- Electronic Communication
- Microsoft Office

Module 2: Communication Skills I (COMM114)

- Accommodate audience and context needs in oral/signed communication
- Interpret a variety of literary texts
- Interpret and use information from texts
- Write texts for a range of communicative contexts

Module 3: Applied Mathematics & Statistics I (MATH114)

- Conversions
- Quantities in Agriculture
- Circumference, Area, Volume & Distances
- 2 and 3 Dimensions
- Maps
- Data, Statistics & Probability in Agriculture
- Financial Mathematics

Module 4: Agricultural Sciences I (AGSC110)

- Animal & Plant Biology
- Basic Chemistry
- Ecological Principles

Module 5: Agricultural Management & Economics I (AGMA114)

- Farm Planning
- Introduction to Farm Management
- Human Resource Management
- Input Procurement, Purchasing & Stock Control

Module 6: Animal Sciences I (ANIM114)

- Classification & Nomenclature
- Genetics & Breeding
- Anatomy & Physiology
- Animal Diseases & Health (MSD)

Module 7: Dairy Production I (DAIRY114)

- The Dairy Industry Overview
- Dairy cattle breeds
- Feeding of dairy cattle
- Raising dairy bull calves
- Raising dairy heifers

Second Semester:

Module 1: Communication Skills II (COMM124)

- Engage in sustained oral communication and evaluate spoken texts
- Read analyse and respond to a variety of texts
- Use language and communication in occupational learning programmes
- Write for a wide range of contexts

Module 2: Agri Engineering Technology (ENGI124)

- Energy
- Agricultural Safety
- Tools & Equipment
- Structural Materials & Construction Processes
- Irrigation & Water Supply
- Geographic Information Systems

Module 3: Agricultural Management & Economics I (AGMA124)

- Farm Business Planning
- Financial Management
- Natural & Sustainable Resources
- Marketing

Module 4: Animal Science I (ANIM124)

- Animal Nutrition
- Predation Management
- Animal Diseases & Health (MSD)
- Artificial Insemination

Module 5: Grazing & Pasture Science I (GRAZ120)

- Introduction to Veld Management
- Succession, Evolution and Veld Types
- Plant Identification
- Assessment of Veld Condition and Carrying Capacity

Module 6: Dairy production I (DAIRY124)

- Caring for dairy cows
- Caring for dairy bulls
- Management of the dairy herd
- Milk harvesting and in-parlour processing

SKILLS AND JOB OPPORTUNITIES

You will develop, over the tenure of your studies, a critical understanding of Dairy Production in Africa in the modern era and working in a global economy. You will gain practical and relevant skills that will enable you to work in the Dairy and other livestock production sectors in Sub-Saharan Africa.

All course content is based on and supported by the latest industry developments, and these best practices will allow you to participate meaningfully in primary Dairy production.

Graduates will be able to enter the primary agricultural workplace and establish a thriving career through hard work and commitment.

METHODOLOGY

The National Certificate in Animal Production with a specialisation in Dairy Production is presented as an exciting e-learning programme. This is done through self-studies, reading and the online submission of assignments.

This is a participatory learning programme, where the student will also be able to communicate with fellow students across the country via, Agri-social, our social media platform. This platform allows for questions to be discussed, and the opportunity to upload and share interesting articles, images, and videos. Throughout the academic year, lecturers will be available on the Agri-social platform. They are also readily accessible via email, SMS, WhatsApp or direct telephonic contact.

Theoretical studies are completed through our online Agri-learn platform and the student is provided with a practical logbook to achieve practical competencies and experiences through the student's workplace. Where needed, students will be assisted towards practical competence through our work placement programme.

ACADEMIC FEES

The following academic fees are applicable for 2023.

Methods of payment:	Year 1 (2023): R 28 000
At registration:	R 2 000.00
After registration: 50% deposit	R 13 000.00
At the start of the second term: (outstanding balance)	R 13 000.00
10 Monthly Debit Order arrangement (R 2 000 registration still applicable)	R 2 750.00

Note: *The cost of travelling, meals and accommodation for practical contact sessions will be at an additional cost to the student.*

ALTERNATIVE PAYMENT ARRANGEMENT

If you are not in a financial position to pay the full quarterly amount, you may apply in writing for the payment of modules on a monthly basis. Please direct your application to The Financial Director, admin@basa.africa

WHY i3A / BASA?

- Courses are SAQA accredited
- World-class lectures and affiliated academics
- Custom-designed online Agricultural Campus that includes e-learning modules and an online encyclopaedia for lifelong support
